

2010, 2012 ROYAL SERIES RUGGED, RELIABLE, ADVANCED: FOR SUPERIOR TEMPERATURE CONTROL

Only the leader in temperature control could bring you a temperature control unit as rugged, reliable, and advanced as the Sterling Royal™ Series. Its new state-of-the-art design features simplified internal cast or non-ferrous fluid circuit with 40% fewer connections and 80% fewer mechanical parts. It also features a new higher-efficiency pump for higher flow rates at lower pressure. The result is dramatically enhanced water flow for superior temperature control.

Features

- Compact, rugged cabinet with easy access side panels
- Cast-and-flange design to reduce connection points
- Non-fused lockable rotary disconnect
- Independent high temperature safety thermostat
- Half- and full-heat capability
- Dual stage Incoloy™ immersion heater with IEC contactors
- NEMA 12 electrical enclosure
- 1/4" cooling solenoid valve on 3/4 to 3 hp (0.56 to 2.24 kW) models; 1/2" slow-close cooling solenoid valve on 5, 7.5, & 10 hp (3.73, 5.60, & 7.46 kW) models
- Forward-facing liquid-filled To and From Process pressure gauges
- Independent high temperature safety thermostat
- Non-fused lockable rotary disconnect
- M2B+ microprocessor controller includes diagnostics features with 2 line x 20 character LCD display
- 3/4" water supply connection, 1.5" process connections; valve size matches drain size
- Motor circuit protection
- Automatic vent sequence
- 150 psig (1,034 kPa/10.3 bars) pressure relief valve
- 3-year parts and labor warranty at the factory
- 5-year controller warranty
- Lifetime warranty on wetted cast components
- Lifetime pump seal (subject to factory review)
- Adjustable low supply water pressure switch; factory-set at 16 psig (110 kPa/1.1 bars)

Options

- Remote Control Enclosure with 20 ft. cable (additional cable available/ft.)
- 12, 18, 24, 36, 48 kW heater sizes available
- Maintained START switch (push to stop, twist to start)
- Manual bypass
- Closed loop heat exchanger, with 1/2" solenoid
- Quick cool switch
- Pressure regulator/relief valve; for water supply, shipped loose
- Auto system water purge; shipped loose
- Y-strainer; shipped loose
- Hammer arrestor
- Ten-foot power cord; no plug, shipped loose
- Rubber feet; in lieu of casters
- 3/4", 1", 1-1/4" cooling solenoid slow-close valve
- Modulating valve, body size; specify Cv valve when ordering
- 300°F operations; includes silicon carbide/silicon carbide seal (requires 55 psig water supply pressure minimum)
- General fault alarm; audible & visual
- Brass construction
- TEFC motor
- M2B+ options include: 4 to 20 mA remote setpoint and retransmission of process variable, setpoint, or flow rate; 232 Modbus, RS-485 Modbus, or RS-485 SPI communications; Remote probe; digital flow meter
- Common wiring and piping for two zone
- 208/3/60 VAC; 200-400/3/50 VAC; 575/3/60 VAC
- UL-, cUL-listed subpanel
- CE certification
