

Overview:

- Provides 360° contained coating coverage to media passing through chamber utilizing Graco Switch tip - air-less nozzles
- Chamber provides smooth interior surfaces for over-spray collection/recirculation
- Coating is distributed to individual nozzles via a central manifold
- Media is fed through the chamber by external means

Features:

- Full 360° product coverage
- 32 Gallon reservoir
- Dual hinged access lids
- Fixed leg stand with +/- 3" adjustable feet
- Adjustable fan widths for coating application
- Precision fluid regulator for control of paint supply pressure
- Simple pneumatic on/off switch
